Selected Topics Courses

What are Selected Topics Courses?

Selected Topics courses provide you with the opportunity to study subjects not offered in the college catalog. The course codes for these courses include the numbers 280, 380, or 480. These 280/380/480 courses are offered in Fall 2018:

MAT 180—Integrated Math II—This is the second course in a two-course sequence designed to develop future teachers' conceptual understanding of mathematics. Through study of algebra, geometry, measurement, basic statistics, and probability, students will strengthen their quantitative reasoning and logical thinking. Emphasis will be placed on problem solving and effective communication of mathematics. This course does not fulfill the Core Math requirement. (3 credits)

COM 280—Special Topics

HUM 380—Survey of Popular Music—This course is intended to help the student deepen her/his biblical worldview and think creatively and critically about popular music. This course will study the most significant styles of American popular music in chronological order, beginning with the roots and continuing through the present day. We will explore several recurring themes throughout the course: the interaction of European American, African American, and Latin American traditions; the influence of mass media and technology (printing, recording, radio, video, Internet); and the role of popular music as a symbol of identity (race, class, gender, generation). (3 credits)

MAT 380—Number Theory—This course introduces students to the field of number theory and its applications in cryptography (the enciphering and deciphering of messages in secret code or cipher). Topics will include but are not limited to prime numbers, divisibility, greatest common divisor and least common multiple, the Euclidean Algorithm, congruencies, Fundamental Theorem of Arithmetic, rational and irrational numbers, and cryptosystems. Students will demonstrate understanding of principal results in the field as they move from concrete computations to abstract proof. (3 credits)

SCI 380—Forensics—This course explores the application of science to the legal process. Forensic science is a multidisciplinary course drawing from students' prior acquired knowledge in biology, chemistry, physics, algebra, and English classes. Students will participate in hands-on activities related to common crime scene evidence such as blood and DNA analysis, fingerprint evidence, and ballistics reports in the process of solving crimes and mysteries with the use of their acquired science skills and will explore from a biblical perspective how scientists play a role in the judicial system. This is an elective credit and does not fulfill credit for the core science requirement. (3 credits)

BIB 480—The Use of the Old Testament in the New Testament—This course examines the use of the OT by the NT writers, working toward a coherent framework for explaining how NT writers understood and applied the original meaning and context of the OT for the New Covenant community. The students are introduced to key terms and concepts and will wrestle with the challenges connected to the NT use of the OT. Students will also deepen their understanding and confidence in the overarching storyline of the OT and NT, exploring possible ways to communicate from the OT in light of its development and fulfillment in the NT. (3 credits)

BUS 481—Financial Accounting

BUS 482—Financial Strategy

BUS 483—Labor and Employment Law Compliance

BUS 484—Marketing Strategy

BUS 485—Procurement

BUS 486—Solution Selling

HIS 480—Dawn of the American Century

PAS 480—Advanced Preaching—Building on the foundation *PAS 201 Biblical Preaching*, this course explores the importance of genre-sensitive preaching with an emphasis on the dynamics of biblical narrative in particular. Students learn how to accurately interpret and effectively communicate biblical narratives. (3 credits)

PCN 480—Equine Therapy—The equine assisted therapy course is designed to introduce students to the fundamentals of counseling using horses. This experiential and interactive course will be held off-site at an equine assisted therapy facility. The course will address the history, development, and current views of this unique and growing field, as well as the diverse therapeutic applications of equine assisted therapy as Christian counselors. Students will receive hands-on opportunities to learn and explore individual and group equine assisted therapy methods, in addition to assigned reading, research, and presentations. (1 Credit)

THE 480A & THE 480B—Theology of Work & Wealth—Students preparing to serve God in a vocation that takes them into the world of business need a firm understanding of the nature of work as designed by God for human flourishing. This course will consider how biblical teaching and theology regarding work, wealth, and productive endeavors relate to the purpose of humans in the original creation; how these purposes have been affected by the fall; how the concepts of scarcity, productivity, and wealth are understood from various Christian and non-Christian perspectives; various possibilities for redemptive Christian engagement in the world of commerce and business; and how the implications of human activity in the eternal state inform a Christian perspective on work and wealth in the present. (3 credits)

THE 480C—Theology of Disability—Approximately 10% of the world's population live with a disability, so students preparing for ministry in many fields will encounter people with physical and mental disabilities, and will need to understand the context and challenges facing disabled people, as well as their potential. While the church has historically marginalized the disabled, the 650 million-member disability community is one of the largest unchurched groups on earth. Besides needing the church's witness, the disability community also has much to teach Christians about redemption, spiritual formation, and hope. This course will develop a definition of disability, explore issues of identity and social isolation that affect the disabled, consider the spiritual needs and potentials of people with varying disabilities, and examine biblical and theological resources for understanding disability in order to equip students with a robust theology of disability. In addition, students will consider how the church can embrace its obligation to minister to those who are disabled, and how to fully welcome disabled Christians into the fellowship and ministry of the church. This course will benefit any student who takes it, but will be especially useful for those pursuing careers in church ministry, education, social work, counseling, and inter-cultural studies. (3 credits)

THE 480D—Advanced Issues in Systematic Theology—This course explores select theological topics in depth, considering opposing viewpoints and seeking biblical support for the student's position. Topics under consideration include the Trinity, Christology, Pneumatology, Soteriology, and Eschatology. (3 credits)

****Registration will open at 8:00 AM.****

Follow the instructions on the following page to register online.

What do I need to do to register? (cont'd)

Step 1

- Go to the "My Community" link found under the "Gateways for Students" on the lbc.edu home page. *NOTE: (You will need to use Microsoft® Internet Explorer® or Google Chrome® and NOT Mozilla Firefox®.) This will take you to the online student information system page.
- Use your LBC student login and password.
- Once logged in you will see your information at the top right hand corner. If you have problems logging into the system, please contact the Registrar's Office.

Step 2

- From your information page, click on the "Academics" link on the left hand side of the page.
- Click the "Online Registration" link. This will allow you to begin the registration process, as long as all holds are removed and it is your assigned time to register.
- On the bottom of the page are two links: "Begin Online Registration" and "View Online Registration Tutorial." If this is your first time using online registration, go through the tutorial to help you with the registration process. Once you are done the tutorial, close the tutorial window and go to online registration using the "Begin Online Registration" link. Again, a separate window will open.

Step 3

- Once the window opens you may search for the courses your advisor has approved. Remember to select "All Courses" when searching for the course you want to register for.
- Once you find the approved courses you may add them to the selected courses list.
- ***You can also add the courses directly to the selected courses list by typing in the course number and section in the "Quick Add" text box found on the bottom left hand corner of the screen.***
- Once you have selected all your approved courses, you may now register for these courses by clicking on the "Register Courses" button found on the bottom right hand corner of the web page.

**Note: If you are not able to find a course that your advisor has approved in the course listings of the online registration module, the course is closed. Finish registering for the remaining courses by following the rest of the directions below. You must go back to your advisor to have another course approved for registration. Your advisor will approve a new course and you may return to online registration and add the course.*

If you would like to add or drop a course after January 15, 2018, you must have your advisor sign an add/drop form, and return that form to the Solution Center in Esbenshade.

Step 4

- You will now see a list of the courses you have selected. Please take a moment to verify that you have the correct courses and sections of courses that your advisor has approved.
- Once you have verified that the courses are correct you may now finalize your registration by clicking the button "**Register/Drop Courses Above.**"
- This will take you to a new screen that shows the courses you have registered for. You will notice that the courses now have a status of "**Registered.**" (Previous screens the course status read "Selected.")
- You are now registered for these courses and can now print your schedule.

What do I need to do to register? (continued)

Step 5

By registering online, you are agreeing to abide by all regulations contained in the Student Handbook and in other college publications. See Student Life for your housing assignment. You will need a printed copy of your schedule to serve as confirmation of your registration to proceed with this step.

Undergraduate Education

What is FERPA?

The Family Educational Rights and Privacy Act (FERPA) affords you, the student, certain rights with respect to your educational record once you are admitted as a student to the college.

What are my rights under FERPA?

As a college student you have four rights under FERPA: (Forms to exercise rights #1-3 are available in the Registrar's Office.)

- 1 To inspect and review your educational record within 45 days of your request.
- 2 To request amendment of your educational record.
- 3 To have some control over the disclosure of personally identifiable information from your educational record, except in the areas that FERPA authorizes disclosure without student consent.
- 4 To file a complaint with the U.S. Department of Education concerning alleged failures by the college to comply with the requirements of FERPA.

What documents are included in my educational record?

Student educational records are specifically defined as all paper and computer records, files, documents, and other materials that contain information directly related to you, the student, and maintained by LBC or someone acting for the college according to policy. Excluded from student educational records are records of instructional, supervisory, and administrative personnel in the sole possession of the maker and that are not accessible or revealed to any other person, except a substitute. Additionally, notes of a professor or staff member intended for his/her own use are not part of the educational record, nor are campus security records, parents' financial statements, application records of students not admitted to the college, alumni records, or records of physicians, psychiatrists, psychologists, or other recognized professionals.

Educational records are maintained by, but are not limited to the following offices, departments, and/or individuals: Registrar's Office, Financial Aid Office, Business Office, Student Services Department, Adult Learner Services Office, Graduate School Office, and Academic Advisors.

What is Directory Information?

Some information about students is considered "Directory Information."

Directory Information may be publicly shared by the institution without student consent unless the student has taken formal action to restrict its release.

"Directory Information" at LBC includes: Name, Address (current, local, home, and electronic mail), Telephone number (current, local, and home), Date of birth, Parent/Spouse contact information (address and phone number), Photo, Major/Program, Weight and height (athletic teams), Date(s) of attendance, Enrollment status (full-time, part-time, not enrolled), Date(s) of graduation, Degrees and awards received, and Participation in officially recognized activities and sports.

Can I control the release of Directory Information?

Yes, you can restrict the public release of Directory Information by completing a form available in the Registrar's Office. You should carefully consider imposing a restriction on the Directory Information. The limits of the college's student information system make it an all or nothing option. For example, your friends would not be able to obtain your directory information nor would the college be able to use it in graduation programs and news releases. This restriction should be reserved for extreme circumstances or on the advice of a legal or medical professional.

Who and under what circumstances can someone access my educational record?

According to FERPA regulations, no one has access to your educational record (other than directory information) without your written permission, except: (1) a school official (defined as: administrators, faculty, professional staff, staff, student workers, and students serving on official college committees) who has a legitimate education interest (defined as: the information or records requested are relevant and necessary to the accomplishment of some task or determination related to the inquirer's employment responsibilities/committee responsibilities or are acting within the course and scope of their employment and/or authority). (2) a parent or guardian who presents a certified copy of the most recent federal income tax form that reports you as a dependent. Other, less common individuals who may access your educational record without your consent include: (3) authorized representatives of accrediting agencies, as well as federal, state, and local government offices, persons or organizations providing financial aid to a student, (4) persons in compliance with a judicial order or subpoena, (5) persons in an emergency if the protected information is needed to protect the safety of the student or other persons, (6) parents regarding the student's violation of any federal, state, or local law, or any college policy or rule governing the use of alcohol or a controlled substance as long as the institution has determined that there has been a violation and the student is under the age of 21 at the time of disclosure, (7) the victim of an alleged perpetrator of a crime of violence or a non-forcible sex offense (limited to the final results of the disciplinary proceeding conducted by the college), and (8) the public in relation to a determined crime of violence or non-forcible sex offense that violates college policy or rule (disclosure limited to the student's name, the violation, and any sanctions imposed by the institution against the student).

Am I required to use my social security number as a personal identifier?

A Federal court ruling upheld the use of the social security number as a personal identifier for administrative purposes in higher education. We protect the privacy of the social security number as required by FERPA. However, you may request (form available in the Registrar's Office) the assignment of an alternate identification number. Effective January 2002, any new students admitted to LBC will no longer have a social security number as a personal identifier for administrative LBC purposes.

Which College Officer is responsible for administering the FERPA guidelines?

The Office of the Registrar is responsible for the institutional compliance with the FERPA guidelines and maintenance and release of the educational record. Questions, interpretations, further explanations, or concerns about FERPA and the college's FERPA policy are to be directed to the Registrar.

How do I file a complaint with the U.S. Department of Education?

Complaints are to be filed with the:
Family Policy Compliance Office
U.S. Department of Education
600 Independence Avenue, SW
Washington, DC 20202-4605
